

**AMENDMENTS TO THE CLAIMS**

Please cancel claims 1-7.

Please add claims 8- 22.

8. (New) A pyrotechnical gas-generating composition comprising guanidine dinitramide and guanyl urea dinitramide.

9. (New) A pyrotechnical gas-generating composition according to claim 8, wherein the guanidine dinitramide is present as the primary component, and the rate of burning of the gas-generating composition is regulated by the presence of a suitable amount of guanyl urea dinitramide.

10. (New) A pyrotechnical gas-generating composition according to claim 8, wherein the guanidine dinitramide comprises greater than 50% by weight of the gas-generating composition.

11. (New) A pyrotechnical gas-generating composition according to claim 8, wherein the gas-generating composition is in the form of pressed tablets containing a binder, the binder does not exceed 10 wt-%.

12. (New) A pyrotechnical gas-generating composition according to claim 8, wherein the gas-releasing substance is in tablet form.

14. (New) A pyrotechnical gas-generating composition according to claim 8, wherein the gas-releasing composition is a recrystallized form of a gas-releasing composition obtained from a safety device.

15. (New) A pyrotechnical gas-generating composition according to claim 8, wherein the guanidine dinitramide comprises 20% to 80% by weight of the gas-releasing composition, not including binder.

16. (New) A pyrotechnical gas-generating composition according to claim 8, wherein the guanidine dinitramide comprises 40% to 80% by weight of the gas-releasing composition, not including binder.

17. (New) A pyrotechnical gas-generating composition according to claim 8, wherein the guanidine dinitramide comprises 40% to 60% by weight of the gas-releasing composition, not including binder.

18. (New) A pyrotechnical gas-generating composition according to claim 8, wherein the gas-generating composition is used in an inflatable safety device.

19. (New) An inflatable safety device comprising a pyrotechnical gas-generating composition according to claim 8.

20. (New) An inflatable safety device comprising a gas-generating composition comprising guanidine dinitramide and guanyl urea dinitramide, wherein the guanidine dinitramide comprises 20% to 80% by weight of the gas-releasing composition, not including binder.

21. (New) An inflatable safety device according to claim 20, wherein the gas-releasing substance is in tablet form.

22. (New) An inflatable safety device according to claim 20, wherein the guanidine dinitramide comprises greater than 50% by weight of the gas-generating composition.
